The future of yield - Government Bonds for Yield :

Pennies in front of a steamroller?

- Potentially big downside risks, limited upside.
- Speed of adjustment is key
- 10 year bonds are a trading strategy, not an investment
- Traders take risks on bonds, investors get certainty

The future of yield - Government Bonds for Yield:

Inflation risks and opportunities

- Inflation is the key
- Inflation linked bonds are a hedge
- Duration leads to a greater impact

A review of traditional income sources:

Equity dividends

Australian equity traditionally known for terrific dividends (pay out ratio's) vs. overseas counterparts.

Share buy backs and internal investment of profits more common internationally.

The future of yield - Targeting growth for harvest:

Now the fun begins!

- More growth assets (equity) may need to be included
- Need higher levels of portfolio management than in the past
- Growth based income can come with tax advantages
- When all else fails - eating into capital may be the last resort or its cat food sandwiches.

Investment Outlook

- Budget: Supply side response to a demand side problem
- Tax cuts in Australia, tax hikes in the US
- Bond rates in the belly of the curve – may extend out later
- 3Q reporting season over next few weeks – extremely important read into outlook
